SUMMARY

I specialize in designing and developing full-stack applications, with hands-on experience in building end to end systems, from backend logic and database design to responsive frontends.

PROFESSIONAL EXPERIENCE

Software Engineer 2023 - 2025
Durra Institute Accra, GH

- Contributed to the development and maintenance of internal web applications using Python, Django, streamlining academic workflows for over 500 students and faculty.
- Designed a course registration and student record system that reduced manual data entry by 70% minimizing administrative errors.
- Integrated secure authentication systems for students and staff, aligning with institutional data privacy policies.

Jnr Software Engineer 2022 - 2023
Suhuyini & Co. Cape Coast, GH

- Improved UI by updating menus to be more intuitive increasing sales by 5%.
- Spearheaded revamp of tech stack which resulted in 40% decrease in server costs.

Python Co-Lead 2018 - 2021
Python Cape Coast Cape Coast, GH

- Co-led regional python community activities, focusing on developer outreach, training, and mentorship.
- Collaborated with national Python Ghana leadership to expand awareness participation in open source initiatives.

Community Lead 2018 - 2020
PyLadies Cape Coast Cape Coast, GH

- Led the Cape Coast chapter of PyLadies. a global initiative that supports women and global minorities in Python programming.
- Organized meetups, workshops, and hands-on coding sessions to support Python programming and web development.

SKILLS

PHP/Laravel
Python/Django
Ruby/Rails

Learning : Java/Spring
C#/.NET

SQL PostgreSQL MongoDB

Git Github MS Office Suite

LANGUAGES

English	Native
Turkish	B2 level
Arabic	Intermediate

INDUSTRY EXPERTISE

Backend & API Development

Frontend Development

Authentication & Author.

Data Analytics

Version Control

Machine Learning

System Design

Database Management

KEY ACHIEVEMENTS

Feedback and Grading Portal

- Collaborated with academic staff to build a centralized feedback and grading portal, leading to a 40% increase in student engagement with digital tools.

EDUCATION

MSc. Computer Science (July 2026)

[University of Ghana, Legon \(Weekend Schedule\)](#)

BSc. Medical Technology

[University of Cape Coast](#)

Diploma in Software Engineering

[AltSchool Africa](#)

CERTIFICATIONS

SQL - Top 10%

[TestDome](#)

Intermediate SQL

[DataCamp](#)

AI/ML in Precision Medicine

[Stanford University](#)

Advanced Data Analytics

[Blossom Academy](#)

VOLUNTEERING

Trainer, Global Code UK

- Co-facilitated IoT & Raspberry Pi workshops, mentoring students on coding and hardware integration.

HONORS & RECOGNITIONS

- Nominated Trainer, Global Code IoT Program: selected to mentor students on Raspberry Pi and hardware integration, 2025
- Selected for the 100 Women in Machine Learning Conference: recognized for leadership and impact in technology, 2019
- 2nd Position, DIV Hackathon: Selected as First Runner-Up among 7 teams at the 'A Day at Hubtel Hackathon', on innovation, technical execution, and potential social impact. 2019
- Academic Excellence Award Nominee, University of Cape Coast, 2017

KEY ACHIEVEMENTS

Adaptive Learning

- Transitioned into tech from a non-traditional background and successfully self-taught full-stack web development through hands-on projects and remote collaboration

PROJECTS

FlyDream: A Flight Booking Web App

Developed a full stack web application for users to search, book, and manage flights with dynamic UI

- Django, PostgreSQL, Tailwind CSS, JS, HTML, Git, Render

HalalFood Bot

A web-based food ordering system for seamless halal food ordering and processing.

- Node.js (Express.js), MongoDB, JWT, Render

join

A rails web app to create private events, invite and manage attendees.

- Rails, Tailwind, PostgreSQL

School Management System

A school management system with diverse user roles and admin panel. Classrooms, Events, Exam schedule etc.

- PHP, Laravel, Filament, Livewire, PostgreSQL
